AMERICAN
CREAM SOAP COMPANY,
Incorporated by Act of the Legislature of the State of New York, and secured by Letters Patent under the
LAWS OF THE U. STATES, A. D. 1851.
CHAS. W. DENNISON & CO.
PROPRIETORS FOR THE STATE OF MAINE,
C. W. D. & CO are now prepared to manufacture and offer to the trade and consumers the Soaps of the American Cream Soap Co, in all their varieties, at their Factory,
Nos. 3 & 33 UNION ST., Portland, Me.,
CONSISTING OF
American Cream Soap in Bars, Laundry and Manufacturers' in Barrels and Cans, Toilet, Shaving, Shaving Cream, Transparent, Cream Soap Preparation, &c. &c.

These Soaps are presented to the public after having been thoroughly tested by ourselves and friends, as the best Labor Saving Articles ever discovered, and we offer them to the public as every way worthy of their confidence.
They do the work of the Laundry in simply warm water, either Soft, Hard, or SALT; dispensing with Boiling or Pounding and the Washboard—in consequence of which a large amount of Fuel and wear and tear of clothing is saved and not one fourth the amount of labor is required to do the washing of a family. The tendency of those Soaps is to soften the clothes and loosen the hold of the dirt without injury. Washing is done by simply rubbing the Soap on the parts of clothes most soiled, and placing them in warm suds sufficient to cover them — there let them remain a few hours, (or all night if convenient,) then, with a slight hand rubbing and good rinsing they will be perfectly clean, and without injury to the most delicate fabric. Merinoes, Silks, Shawls, &c., may be washed with perfect safety. Cotton Goods, Prints of any color that will fade in water alone when washed with those Soaps, according to the directions, will not change, but remain firm, and the colors rendered more brilliant. For washing Woollens, Paints, Gilding, Mirrors, Maps, Paintings, Lamps, Silver Ware, &c, &c., these Soaps are superior to any in the market. The cost of these Soaps is no more than those ordinarily used, and besides this the great wear and tear of clothing consequent upon the old method of hard rubbing upon a board, machine, pounding barrel, &c., &c., and the necessity of boiling, is wholly avoided.
We ask for this Soap a fair trial, choosing to trust to its own merits rather than a resort to the publication of a long list of certificates from those who have used it wherever it has been manufactured which we have in our power to do were it necessary.
For sale, wholesale only, at 31 & 33 Union Street, Portland, and retail by Grocers generally in city and country. Agents supplied on liberal terms. All orders addressed to C W D & Co, postpaid, Nos 31 & 33 Union Street, Portland, Me., will receive prompt attention.
Sold manufacturers prices by G F SARGENT & Co, No 8 corner Smith's Block, Bangor. Exclusive Wholesale Agent for Bangor and vicinity. ju6—dtand&w

Dr. Langley's Root and Herb
BITTERS.
A COMPOUND of Sarsaparilla, Yellow Dock, Prickly Ash, Dandelion, Thoroughwort, Wild Cherry, Mandrake, and Rhubarb. Just the Medicine for Ladies sure to do them good.
SPRING HAS COME.
Read, consider reflect, and know that after being shut up or confined in factories or workshops all winter the Liver becomes inactive and unhealthy, thus filling the blood with vitiated humors, producing Jaundice, Weakness, Loss of Appetite, Dyspepsia, Headache, Costiveness, Indigestion, Foul Stomach, Piles, Languor and General Debility. Now then, if you wish to remove all these, together with humors in the Blood and Skin take Dr. Langley's Root and Herb Bitters—at least one or two bottles. They always do good and never hurt. Let each and every man, woman and child have a bottle at only 25 cents for a pint 37½ cents for a quart bottle.

Now Nature, herself, a sure remedy brings,
Which clears the current of life at its springs
From foetid Diseases that blast the frame,
Langley's Root and Herb Bitters infallibly save
There's scarcely a dangerous disease we can name
In which the Root and Herb Bitters have not achieved fame
And so safe are the medicine they cannot do harm,
While they strengthen the system and act like a charm
Are you Temperance? then—When this medicine imposed
No drink alcohol can be in it used
Nor need the fond mother feel anxious alarm,
To the tenderest infant it cannot do harm
Is your Liver disorder'd? is Jaundice your foe?
Then Langley will do it with the monster a blow,
Do you suffer with Headache—'twill give you relief
For Piles 'tis of all cures acknowledged the chief,
The mouths of the aged and ill do you good
The test of experience as easily stood—
And many unto at this truth will appeal
That the Root and Herb Bitters is every one's Friend.
Is your Appetite gone, then the Root Bitters take
And you'll hear thy relish for the chop or your steak,
The blood it will purify—redden your cheek,
And strength and your frame should it ever grow weakly
The Ladies declare no such Remedy's known
And the sale is immense in the Fair Sex alone
No wonder, the Bitters make Langley to fly,
Brings new bloom to the lip new fire to the eye"

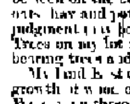
Important Bargains Offered.


LOTS of Land for Rural Dwelling Houses with Fruit and Vegetable Gardens, adjoining the city, now lying on the continuation of Franklin St and Broadway, and a street laid out, to be a walk in the range with Broadway as it runs from State Street (Hall Park). This street is laid out about 160 rods, through my lands extending over the west end of Mt Hope. This land is north of and much higher than the Park having a commanding view of the city and surrounding country.
Also land for Orchards, and Farming on the new State Road to Oldtown, running by Coombs Mills situate beyond and near the first considerable elevation, having a view of some part of the city on its western side. This land is considered as good as the farm on which I live where I have raised over 40 bushels of wheat to the acre (as may be seen on the books of the P. A. Society,) and oats hay and potatoes in that proportion. Some judgment may be formed also of my land for Fruit Trees on my lot near the city by examining my bearing trees and our Fruit Nurseries.
My land East of the Mills has a considerable growth thereon on it and some timber for frames. We can run three turns a day it being one of the nearest roads coming out of Bangor.
Liberal terms will be given on it and the size of the lots made to suit purchasers.

WHIG NOMINATION.

FOR GOVERNOR,

ISAAC REED,

OF WALDOBORO

Whig Congressional District Convention

The Whigs of the Fifth Congressional District are requested to send Delegates, to meet in Convention at Exeter, on THURSDAY, the 17th day of August next, at 11 o'clock A M, for the purpose of nominating a candidate to represent said district in the next Congress.

Towns having 1000 inhabitants, and under, are entitled to two delegates; over 1000 and under 2000, four; over 2000 and under 3000 six, over 3000 and under 8000 ten, and over 8000 fifteen. The census of 1850 to be taken to determine the number of inhabitants. Per order of the Committee.

July 13th.

VERMONT. The late Whig State Convention of Vermont favored a call of all the opponents of the Nebraska bill, at Montpelier on the 4th instant. The Convention was adjourned, and is to meet again to day (13th,) which is the anniversary of the passage of the Ordinance of 1787. It is understood that Mr Shafter the Free-democratic and Whig candidate for Lieut Governor, has removed from the State, and that a new nomination is necessary.

The Vermont State Journal, one of the strongest anti Nebraska and Maine Law papers in the State, and also a leading Whig journal, says that the Whig State Convention, acting as an independent organization, acknowledged the surpassing importance of the questions thrust upon the country by the passage of the Nebraska bill, and erected a platform bold, meeting all the points of the case—and having cordially invited co-operation in the defence of freedom, recommended a State ticket in itself a pledge of its sincerity. Under these circumstances, it is expected that the Mass Convention at Montpelier will adopt the Whig candidate for Governor, Hon Stephen Royce of Berkshire, and the Whig candidate for State Treasurer Henry M Bates of Northfield. Probably some gentleman from the Free democratic party will be mutually agreed upon to run for Lt. Governor in place of Mr Shafter, if it be true that he has removed from the State. The Journal adds that "if the Rutland (Whig) proposition be not accepted then the Whigs will be at liberty to abide by their own ground and claim, from the people the support due to a sound platform and an excellent ticket—and that freedom will triumph still." The action proposed by the Whigs and Free democrats seems therefore to amount to a coalition, and not to a "fusion."

The Journal of Commerce is correct in its opposition to Cuban annexation, but it need not speculate upon republican institutions a century hence. Long before that period the southern slaves will have asserted their independence, the north eastern States will have declared off from the Union and in all probability have placed themselves under the protection of Great Britain, by entering into a federal union with these Colonies — New Brunswicker.

Our down-east contemporary is at least a century behind the times, and all for want of a railroad. Why, man, the next step, *after* the annexation of Canada and your small Provinces which lie the other side of Quoddy, will be the annexation of Britain herself to this Union.

In predicting a new north-eastern confederacy, embracing the British Provinces, our friend of the New Brunswicker has been evidently misled by some recent pleasantry on the subject by Bro Drew of the Banner.

A passenger from the east, reports to the Boston Journal, that the cholera prevails extensively at Richmond on the Kennebec river, and that many of the inhabitants were leaving the town in consequence. Twenty six fatal cases are reported since the Fourth of July—but a portion of them are ascertained to have been cases of ship fever. We have no doubt the truth is greatly exaggerated in this matter.

Raspberries are now taking the place of strawberries in this market.

To the Editor of the Whig and Courier

The undersigned, members of the Police, of this City in answer to the remarks in Tuesday's Mercury, upon the subject of the action of the Court on Monday last, in the case against Megher for an assault upon the officers, desire that their views in this matter, shall be fully understood.

We regard any interference with us in making arrests, or in the discharge of any official duty as offences of the most serious magnitude, tending to the subversion of law and order, and the peace and well being of the community.

We have observed that individuals guilty of these offences, and required by the Police Judge to answer therefor, at the Supreme Court, are soon found to be at large upon insufficient bail, which, with the proverbial "law's delay," frequently enables them to go wholly unpunished.

With these facts strongly impressed upon our minds we suggested to Judge Holsdon in the case of Megher, the propriety of granting warrants for each offence and taking jurisdiction thereof, imposing the highest fine authorized by statute, which was done—desiring to see some punishment inflicted upon the offender.

We are very far, however, from expressing our *satisfaction* with the imposition of a penalty so trifling, for offences of such magnitude; believing that an exemplary punishment should be visited upon such offenders, but in the case of Megher, we deemed the course taken the most expedient.

FINE OIL PAINTINGS. The fine collection of Pictures from the continent of Europe, now open for examination at Acadian Hall, are well worth a visit, as they are without doubt the most artistic collection of what may justly be termed works of art, ever seen in our city. And as the whole are to be disposed of at public auction, by R. S. Prescott, auctioneer, tomorrow (Friday,) morning, a rare opportunity is offered to become possessed of a few good pictures at auction prices, seldom to be met with. They may be seen, with catalogues; all day and evening, to-day, until 9 P M.

By the California Mail.

We are indebted to Hon. Elisha H Allen, Minister of Finance, under the Sandwich Island Government, for a copy of his able Report upon the finances of the kingdom, to which we alluded some time ago.

He also sends us the Polynesian Extra containing the news from Japan, received at that port by the U S sloop-of-war Saratoga, which made the run from Japan to that port in 25 days—the shortest yet made.

The accounts of the treaty negotiated have been anticipated by the telegraph. We append some of the remarks of the Polynesian, however.

We understand the treaty arranges for intercourse at both of these places—for the residence of American citizens there, and also for the residence of Consuls, if, in future, either party should desire it. It also stipulates that Americans residing in or visiting these ports, shall be free to visit the interior, to the distance of ten or twelve miles without molestation.

It was said that the Japanese did not hesitate to enter into the most unqualified stipulations for the protection of seamen or others thrown on their shores, indeed, they affirm that it was already a part of the law of the Empire, by penalties. They even insisted that the respective governments should pay the expenses of the necessities of the citizens of the other, who might, by their misfortunes, need their aid and comfort.

This disposition of the Japanese to treat with care and attention shipwrecked men, is quite contrary to the generally received opinion of the world in this respect, and in justice to the Japanese, it is but fair to state, that the restraints hitherto imposed upon American seamen, about which so much has been said and written, were rendered necessary by their overbearing lawlessness, and vicious habits.

It is the first international treaty ever made by the empire of Japan, although repeated attempts have formerly been made to enter into relations with them of this character. The privileges enjoyed by the Dutch, were a mere grant to a private Company, having its principal foreign seat at Batavia.

The Russian fleet, consisting of a steamer, frigate, sloop-of-war and steamship, has been at Nangasaki all winter importuning Japan for a treaty, but left in the month of February, unable to effect their object.

SANDWICH ISLANDS. "Petitions had been sent in from all parts of the Islands by the natives, against annexation to the United States, except in case of French interference—and it is probable that at least 25,000 names have been on the petitions. Those who are best informed in the politics of the kingdom, think that French interference will take place at no distant day."

FROM CHINA.—"From Canton, says the *Friend of China*, we learn that there are bandits at no great distance from the city, committing frightful atrocities. It would appear that, in revenge for the betrayal of some of their comrades, after plundering the houses of everything, young children have been caught and crucified by hundreds in the sight of their agonized mothers, who, frantic but powerless, have dashed their brains out against the walls at the cruel sight. These fiends in human shape, (some 500, are spoken of as in one body) are distinguished by red scarfs across their shoulders, and the Canton government, "powerful" as it has been termed by a contemporary, is not able to exterminate them."

MORE RIOTING IN BATH. We learn from the Bath Tribune, that there were further riotous proceedings in that city on Saturday evening.—A crowd, attempted to pull down an old building which for some cause had been obnoxious to them. The Mayor read the riot act and ordered the crowd to disperse, but they refused, when the City Greys was ordered out, but before they had time to assemble, the mob dispersed. On Monday, Ira Mason was brought before Judge Smith, charged with aiding and abetting in the disturbances above mentioned, and was ordered to recognize in the sum of $2000 or his appearance for examination at 9 o'clock next morning. He failed to obtain bonds, and was committed.

PROMISING CROP. The Quitman (Miss.) Intelligencer says: "It rains here every day copiously. The corn crops on the lighter lands are truly promising. We heard of a farmer on Buckatuna who went over to one of his neighbor's houses a few days ago to borrow his ladder to climb up high enough to see if his corn was tasseling!"

From the Boston Journal.

The Cuban Fillibusters.

There are some persons who disbelieve the reports which are from time to time made public of, the organization and arming of a large force of men at the south and southwest, with a view of making a descent on Cuba. We have received some information from a source which renders it worthy of confidence, in regard to the operations of the fillibusters—their meetings and the measures they are taking to raise the funds necessary to carry out their disreputable projects. A merchant of this city who has recently returned from New Orleans, has placed in our hands a printed circular, headed, "Private and confidential,"—intended for circulation at the south, and containing accounts of several meetings held by citizens of New Orleans, who are in favor of the fillibuster project.

These meetings, our informant states, are held at the house of a free woman of color every Monday and Friday evening. A member of a highly respectable hardware house presides over the meetings, which are organized as a committee, and which are attended by many of the leading merchants and members of other professions in New Orleans. There is no secret about the matter, in New Orleans. The various amounts subscribed to the fund, and the names of the subscribers, are freely mentioned. The circulars issued by this committee are signed by J. S. Thrasher as corresponding Secretary, and one is furnished to each subscriber. Our informant visited several plantations and found the feeling in favor of the expedition to be unanimous and decided. Gen Quitman, who, it is said, is to be the leader of the proposed expedition, has had applications for situations in his army from many prominent military men in different parts of the country.

Our informant states further, that he has information which satisfies him that there are at the present time, from 5000 to 6000 men organized, and being drilled for service, in the fillibuster army. We also notice by the testimony of a Dr Saunders as given before the grand jury at New Orleans, that the fact of the meetings being held was admitted and also that the publication of the proceedings of the meeting was admitted. The latter fact has probably reference to the document which we now have before us.

This document contains first, the report of a "meeting of citizens of New Orleans friendly to Cuban Independence," which was held on the 13th April. The President of the Cuban Revolutionary Junta in this country, made a brief statement of the feelings of the inhabitants of Cuba, and stated facts in support of the position that they had, from the year 1823 up to the present time, been laboring to attain their freedom. The circular says that Mr Thrasher next addressed the meeting in support of the facts of the President of the Junta, who subscribes himself Gaspar Betan Court Cisneros. Mr T also read the terms of appointment of a Trust Committee of three American gentlemen of high standing," who are "to receive and take charge of all moneys, securities and means which may be contributed for the purpose of securing the independence of Cuba," —which moneys, &c., "are not to be paid out except to the order of Gen. —— after he shall in writing have declared his acceptance of the trust. In case of the failure of the scheme the funds are to be returned to the donors. The "Gen ——" then addressed the meeting stating that he would accept the leadership and proceed to carry out the movement as soon as five hundred thousand dollars over and above the present resources of the Junta should be raised.

A committee to report on the best way of raising means was appointed, after which the following resolutions were adopted.

"*Whereas*, The policy recently adopted by the Spanish government in Cuba evinces a determination to change the social institutions and political relations of that island, subverting the white race to the predominance of a barbarous and servile race of African negroes, and the people of that country, justly alarmed at the horrible fate which awaits themselves and their children if this policy is carried into effective operation, have made, and are still making strenuous efforts to arrest its course, and to establish a free government, the policy and tendencies of which shall be consonant with the true interests of Cuba and of its neighboring republics, and

Whereas, The successful accomplishment of these designs of the Spanish Crown would be fraught with danger to our national interests and influence, to the social and domestic repose and security of these States, to the safety of our southern ports and harbors and their commerce, of our trade in the Gulf of Mexico and its adjacent waters, and of our intercourse between our Atlantic and Pacific States; and that it would consummate the ruin of all existing interests in Cuba, thereby erecting an insurmountable barrier to the progress of American influence and of the true social and political relations which should exist between the nations of this continent; and believing that a juncture is now at hand most favorable for a successful resistance to the establishment of these destructive principles, while the unforeseen event of the impending conflict in Europe may be eminently disastrous to the best interests of Cuba dependent as she is upon a European power that has no unity of interest or of purpose with this Republic.

Be it resolved, That the time has arrived for the friends of the cause of Cuba to unite upon some method of effective co operation for the purpose of establishing the independence of that island.

Resolved, That we have seen with pleasure the evidence presented to us by the Cuban Revolutionary Junta of the desire of their country men to establish a free government and of the means they have accumulated and are accumulating for that purpose, in the hands of responsible depositaries in this country, who are worthy of our entire confidence.

Resolved, That the expedition which has been made us of their intentions, their plans, and of the motives and wishes of the leaders of their movement, comprising, as it does, no violation of our neutrality laws, nor of national or individual honor, merits the confidence and co operation of all who are friendly to the cause of freedom and independence in Cuba.

Resolved, That to carry out these great designs, and to secure the high and noble purposes, at which they aim, a unity of action on the part of the people of Cuba, and of the citizens of the United States who sympathize with them, is urgently necessary."

The meeting then adjourned to April 18th, at which time the above named committee reported.

"We have conferred with the Cuban Revolutionary Junta, and they have voluntarily tendered the following propositions.

The Junta will issue bonds in the name of the new Republic of Cuba, signed by themselves as the representatives of the aspirations of Free Cuba, said bonds to bear interest at the rate of six per cent. per annum, and to be issued at the rate of three dollars in bonds for each dollar subscribed, the proceeds from said subscriptions to go into the hands of the Trust Committee lately appointed and holding a portion of the Cuban funds in trust, to be by it held and ultimately disposed of, jointly with the Cuban Trust in its hands, under the terms expressed in the appointment of the Trustees.

The Cuban Revolutionary Junta further proposes that when Gen ——, or any other military chief having the confidence of the American Trust Committee and themselves, accepts in writing the leadership of the movement, and the disposal of the funds, it will resign into his hands all the full delegated power which it holds as the representative of the aspiration of Free Cuba, and that the members thereof will yield to him their full and undivided support in carrying into effect his plans for establishing a free government in that island.

After the Fourth.

Fourth of July brings its invariable sequel. We read in our exchange papers to day that A had his legs blown off by the explosion of a cannon, that B has been badly wounded in the face by the premature ignition of powder, over which he was stooping, that B has lost three fingers by the bursting of a pistol, that D has had his eye put out by a serpent, E has been struck senseless by a falling rocket stick, that F set his little sister's clothes on fire with a pack of crackers, that G has scorched the skin of his hands, face and breast, with turpentine, that H's pistol went off in his pocket, and wounded him in the thigh, that I a musket burst in the face of a bystander, that J has been shot by her brother, who did not know his gun was loaded; that K was carried to the hospital with his arm hanging only by the skin, that L is blind for life, that M's house has been burned down—supposed by powder crackers, that N's laboratory of fireworks has taken fire, killing him and setting the block in flames, that O's horse taking fright at a double header, ran away, throwing him out and breaking his neck, that P has dropped dead in the street, from heat and liquor, that Q lying drunk on the railroad track has been crushed to death, that R, S, T, U and V, with their families, took an excursion train of which no notice had been given to the engineer of the down express, and that they are mangled and maimed by the collision, that W at the exhibition of fireworks, was badly burned by the going off of a piece after he thought the quick match was extinguished — that X was crushed by the falling of seats, that Y was knocked down and trampled on by the crowd running to the fire and that Z, in the fourth story, was burned to death before assistance could reach him.

All these things actually happened on Tuesday. They all happen every year. They will happen next Fourth of July. So regular is their recurrence that they can be counted on and be prepared for with the same forethought as that which sends a wagon load of plasters, lint, crutches, &c with each division of the allied army that is marching on Silistria.

We would not willingly see the National Holiday shorn of a single observance, or any one deprived of his peculiar mode of best enjoying it. And, if we would, we could not prevent all these things by law or Police. Any attempt to check popular rejoicing would be as futile as it would be thought oppressive. Individual prudence, and that only, can prevent them. Why must it be so generally laid aside on the very day of the year, when it is most needed.—Albany Journal.

Speaking of the notable defeat of the Pierce democracy, in the New Hampshire Senatorial election, a Concord correspondent of the New York Express says:

When it is considered that not only all the influence of the party and the State officers here, but also the government at Washington have been using all their power to elect these Senators, by promises, coaxing, driving, drilling, bribery, and in every way possible without success it may indeed be called a triumph of the people over the corruptions of Executive power. Wells and Hibbard defeated the power of the "unterrified," will be broken. Gen Pierce will be repudiated by his own State, and there will be "none so poor as to do him reverence." The Nebraska bill will change thousands of votes before another State election, and the vote of New Hampshire will be given for freedom and the constitution, at the next Presidential election.

Then rally the freemen, while the tears are turning,
The dream is ending, it calls to the fray,
While tears in every dairy are burning,
Then rally, oh rally, and make no delay.
The people are rising, in mare will they slumber,
Their country now calls, on to rescue they fly,
While thousands of thousands increasing in number,
Still ring out the watchword—"We conquer or die."
We will no submit to the rule and dictation
Of den agogue statesmen, of traitors and knaves,
But drive every one of them out of the nation,
Or send them all into political graves.

Never failing Remedy—Among the immense number of patent medicines discovered there are but very few that possess any real merit. Of this last class the discoveries of Dr Holloway, a celebrated English Physician may be ranked as among the best, both on account of the character of the ingredients of which the medicines are composed, and the variety of diseases which have been effectually removed by their use. The Professor has established a house at 88 Ann street, for the sale of the same throughout the Union, where parties may be supplied with them at wholesale.—New York National Democrat.

BANGOR DAILY WHIG AND COURIER.

TELEGRAPHIC

TO THE DAILY WHIG AND COURIER.

LATE AND IMPORTANT FROM EUROPE.

Arrival of Steamship Asia.

New York, July 12.

The steamship Asia arrived this morning at 7½, bringing intelligence from Liverpool to July 1st

The aspect of the war has undergone no change, and it is difficult to foresee what new complications may arise

Austria is ready to march her 200,000 troops into the Principalities, thus interposing between the combatants, and preventing further hostilities there.

Austria has not yet received the Czar's official reply to her demands. She cannot receive it before July 3d, and will not act decisively until it is received. The action of Austria is in accordance with the convention between herself mutually and the Porte.

The whole Anglo-French force is now at Varna, preparing, it is supposed, for an expedition, under Arnaud in person, into the Crimea

The whole Russian army of occupation is falling back in good order, with all his stores. The garrisons of Ismail, Gallatz, &c. are already on the march to the Crimea and all the disposable force will follow—as that is expected to be the next battle field

Nicholas himself is on his way to the Crimea, from Kiev

From the Baltic, intelligence to June 27th says that Napier had concentrated his whole force twenty five miles from Cronstadt, in a manner that would indicate an attack.

Four British ships had bombarded Bomarsound

The White Sea will be blockaded from the 1st of August

Both armies in Asia are motionless, at Kars. Greece is quiet

Interesting debates have taken place in the British Parliament, upon the Fishery and Reciprocity Treaty and the Canada Elective Council bill

Capt Pearson, of the ship Rose Standish, died of his wounds received at the battle of Shanghae, in China.

[The line worked so badly that we were unable to obtain the Liverpool market report, beyond the fact that the prices of breadstuffs had been affected in someway by the weather.]

Vermont State Temperance Convention.

Montpelier, June 12th

The State Temperance Convention, called to consider the propriety of nominating a Temperance Ticket for State officers, is in session. Gov Wilson of Montpelier presiding No nomination will probably be made, as communications have been submitted by both the Whig and Democratic candidates in which they fully endorse the provisions of the Maine Liquor Law

The Northrup Kidnapping Affair.

Saratoga, June 12th.

The examination of Morrill and Russell was continued to day The evidence was strong against them. Their counsel refused to call any witnesses in their behalf, contending that the statute of limitations required the indictment should be made within three years after the commission of the offence The District Attorney contended that the crime was continued until Northrup was released from slavery. The Justice took the same view and committed the prisoners

Northrup has commenced suits for damages against both, and they have been held to bail in $5000 each

Extensive Burglary—Desertion of steamer Star of the West.

The banking house of Auguste Belmont & Co was entered, Tuesday night, by means of skeleton keys The safe was also entered by false keys, and $14 000 in $1000 bills on the Bank of the State of New York, were stolen.

Steamer Star of the West left Kingston, Ja., on her outward trip on the night of the 27th of June and as she was proceeding down the harbor ran ashore on a bank of mud, near Port Royal and did not get off until the morning of the 29th, when she returned to Kingston, and after undergoing examination, sailed again for San Juan.

Seaman Drowned.

New York, July 12

The 11th, arrived, brig Maine, Boston, on the 27th of June Ephraim Brown, seaman, a native of Ireland, fell overboard from the topsail yard, and was drowned.

The Ship Great Republic Sold.

The ship Great Republic was sold at auction for $28,200—one-third cash in thirty days and balance in sixty days

Cholera.

Charleston, June 12th

Cholera is raging badly at Shelbyville, Ky. Among the victims is the principal physician of the town.

New York Markets.

New York, July 12—6 P M.

Congress.

Washington, July 11.

Senate. The bill for a telegraph to the Pacific was passed, yeas 20, nays 19.

Mr Brown moved to the table a substitute he intends offering for the Homestead bill.

House. Mr Olds reported a bill repealing that portion of the Post-office Law of 1852, which authorizes a reduction of fifty per cent on prepaid newspapers and periodicals. He looked upon the provision as a bonus to the city against the country press

Mr. Bennett's bill granting lands to the several States for railroad purposes, was postponed till December.

Examination of the Kidnappers. Saratoga, June 11 The examination of Alexander Morrill and Joseph Russell, charged with Kidnapping Solomon Northup and selling him into slavery, has been in progress to-day at Ballston Spa Northup distinctly swears to their being the persons, and to the fact that he was hired at Saratoga Springs, in 1841, to go with them to join a circus and treated at Washington with drugged liquor, &c

N. Hampshire's Legislature—The Maine Law. Concord, June 11 The House to-day passed resolutions appropriating $2000 for a State Reform School

The Liquor bill was taken from the table and ordered to a third reading.

KENNEDY'S

MEDICAL DISCOVERY

The Greatest of the Age!

MR KENNEDY, of Roxbury, has discovered in one of our common pasture weeds a remedy that cures *EVERY KIND OF HUMOR* from the worst Scrofula down to a common Pimple. He has tried it in over eleven hundred cases, and never failed except in two cases (both thunder humor). He has now in his possession over two hundred certificates of its virtue, all within twenty miles of Boston

Two Bottles are warranted to cure a nursing sore mouth

One to three bottles will cure the worst kind of pimples on the face

Two to three bottles will clear the system of biles

Two bottles are warranted to cure the worst canker in the mouth and stomach

Three to five bottles are warranted to cure the worst cases of erysipelas

One to two bottles are warranted to cure all humor in the eyes

Two bottles are warranted to cure running in the ears and blotches among the hair

Four to six bottles are warranted to cure corrupt and running ulcers

One bottle will cure scaly eruptions of the skin

Two to three bottles are warranted to cure the worst case of ringworm

Two to three bottles are warranted to cure the most desperate cases of rheumatism

Three to six bottles are warranted to cure salt rheum

Five to eight bottles will cure the very worst case of Scrofula

A benefit is always experienced from the first bottle and a perfect cure warranted when the above quantity is taken.

Nothing looks so improbable to those who have in vain tried all the wonderful medicines of the day as that a common weed growing upon the pastures, and along old stone walls, should cure every humor in the system, yet it is now a fixed fact —If you have a humor it has to start There are no ifs nor ands, hums or haws about it, suiting some cases, but not yours. He has peddled over a thousand bottles of it in the vicinity of Boston, and knows the effects of it in every case It has already done some of the greatest cures ever done in Massachusetts. He gave it to children a year old, to old people of sixty, and has seen puny looking children whose flesh was soft and flabby, restored to a perfect state of health by one bottle

To those who are subject to a sick headache, one bottle will always cure it It gives great relief in catarrh and dizziness Some who have taken it have been costive for years, and have been regulated by it Where the body is sound it works quite easy but where there is any derangement of the functions of nature, it will cause very singular feelings but you must not be alarmed—they always disappear in from four days to a week. There is never a bad result from it—on the contrary, when that feeling is gone you will feel yourself like a new person I heard some of the most extravagant encomiums of it that ever man listened to.

No change of diet ever necessary Eat the best you can get, and enough of it

AYER'S PILLS,

A new and singularly successful remedy for the cure of all Bilious diseases—Costiveness, Indigestion, Jaundice, Dropsy, Rheumatism, Fevers Gout Humors, Nervousness Irritability, Inflammations, Headache, Pains in the Breast, Side Back and Limbs Female complaints &c, &c Indeed very few are the diseases in which a Purgative Medicine is not more or less required and much sickness and suffering might be prevented, if a harmless but effectual Cathartic were more freely used No person can feel well while a costive habit of body prevails, besides it soon generates serious and often fatal diseases which might have been avoided by the timely and judicious use of a good purgative This is alike true of Colds, Feverish symptoms and Bilious derangements They all tend to become or produce the deep seated and formidable distempers which load the hearses all over the land Hence a reliable family physic is of the first importance to the public health, and this Pill has been perfected with consummate skill to meet that demand An extensive trial of its virtues by Physicians, Professors and Patients, has shown results surpassing anything hitherto known of any medicine Cures have been effected beyond belief, were they not substantiated by persons of such exalted position and character as to forbid the suspicion of untruth

Among the eminent gentlemen to whom we are allowed to refer for these facts are

PROF VALENTINE MOTT, the distinguished Surgeon of New York City

DOCT A A HAYES Practical Chemist of the Port of Boston and Geologist for the State of Massachusetts.

IRA L MOORE, M D, an eminent Surgeon and Physician of the City of Lowell who has long used it in his extensive practice

H C SOUTHWICK Esq, one of the first merchants in New York City

C A DAVIS, M D, Sup't and Surgeon of the United States Marine Hospital at Chelsea Mass

Did space permit, we could give many hundred such names from all parts where the Pills have been used but evidence even more convincing than the certificates of these eminent public men is shown in their effects upon trial.

These Pills, the result of long investigation and study are offered to the public as the best and most complete which the present state of medical science can afford They are compounded not of the drugs themselves but of the medicinal virtues only of Vegetable remedies, extracted by chemical process, in a state of purity and combined together in such a manner as to insure the best results This system of composition for medicines has been found in the Cherry Pectoral and Pills both to produce a more efficient remedy than had hitherto been obtained by any process The reason is perfectly obvious While by the old mode of composition, every medicine is burdened with more or less of acrimonious and injurious qualities, by this each individual virtue only that is desired for the curative effect is present All the inert and obnoxious qualities of each substance employed are left behind the curative virtues only being retained. Hence it is self evident the effects should prove as they have proved more purely remedial, and the Pills a surer, more powerful antidote to disease than any other medicine known to the world

As it is frequently expedient that my medicine should be taken under the counsel of an attending Physician, and as he could not properly judge of a remedy without knowing its composition, I have supplied the accurate formula by which both my Pectoral and Pills are made to the whole body of Practitioners in the United States and British American Provinces If however there should be any one who has not received them they will be promptly forwarded by mail to his address.

Of all the Patent Medicines that are offered how few would be taken if their composition was known! Their life consists in their mystery I have no mysteries

The composition of my preparations is laid open to all men and all who are competent to judge on the subject, freely acknowledge their convictions of their intrinsic merits. The Cherry Pectoral was pronounced by scientific men to be a wonderful medicine before its effects were known. Many eminent Physicians have declared the same thing of my Pills and even more confidently and are willing to certify that their anticipations were more than realized by their effects upon trial

They operate by their powerful influence on the internal viscera to purify the blood and stimulate it into healthy action—remove the obstructions of the stomach, bowels, liver and other organs of the body, restoring their irregular action to health and by correcting wherever they exist such derangements as are the first origin of disease

Being sugar wrapped they are pleasant to take and being purely vegetable no harm can arise from their use in any quantity

For minute directions, see the wrapper on the Box.

WILBOR'S COMPOUND OF

PURE COD LIVER OIL AND LIME.

THIS valuable medicine which has received the sanction of the medical faculty by whom it is regularly prescribed and which has been used successfully by thousands of invalids is one of the most remarkable preparations ever offered to the public for the cure of

CONSUMPTION SCROFULA, COUGHS COLDS, ASTHMA, BRONCHITIS SPITTING OF BLOOD, AND ALL COMPLAINTS OF THE LUNGS.

Pure Cod Liver Oil has long been acknowledged to be the most efficacious article for the cure of Consumption and kindred diseases yet discovered while the chemical properties of the PHOSPHATE OF LIME are also well known in medicine as being peculiarly healing In cases where ulceration has taken place on the lungs this article has been found by the most careful tests to supply the very ingredients necessary for the formation of cells and the complete healing of this delicate part of the human system

This preparation of the Pure Cod Liver Oil and Lime robs the oil of its very nauseating taste which renders it so repulsive, particularly to invalids.—The thorough incorporation of the Phosphate of Lime with the Oil has only been accomplished by the adoption of the most perfect rules of chemistry and a medicine has thereby been produced which is of inestimable value in a climate like our own

A long array of certificates might be given here to prove the efficacious character of this medicine but it is not deemed necessary The fact that from the very first introduction of the Cod Liver Oil and Lime before the public it has been gradually adopted by the medical faculty, is sufficient proof of its unquestioned excellence

DR ORDWAY'S HUMOR DISCOVERY, AND BLOOD PURIFIER.

DR. ORDWAY has been using his Blood Purifier in his practice for the last seven years, with great success. He has often been urged by his friends, and those who have tried it and known its efficacy, to put it within the reach of all

He has now added to it an *Herb discovered in California*, by DR KELLEY, which makes it the most wonderful remedy for

HUMORS OF ALL KINDS,

LIVER COMPLAINTS CHRONIC DISEASES, &C

The virtues of this Herb were first made known to Dr Kelley by an Indian while tending a patient sick with that terrible disease the California Erysipelas and Liver Complaint.

The effect was miraculous curing the man in a few days

The natives, when bitten by a rattlesnake, or rabid animal resort to this Herb for a cure

Hundreds are taking this medicine, after trying in vain other remedies, and say the half was never told them

Discovery of the California Herb

About the first of March, in the year 1849, Dr Kelley sailed from Boston in the ship Sweden for California, and arrived at San Francisco in July following He spent considerable time in travelling the country and mining but the greater portion of which was spent in the practice of his profession.

While he was practicing in the vicinity of Auburn between the north and south forks of the American river, he frequently noticed the Indians gathering an Herb, which they held in high estimation in curing diseases, bites of rattlesnakes and rabid animals

While doctoring a miner for that terrible disease the California Erysipelas and Liver Complaint an Indian (whose life he had previously saved when in a quarrel with some miners) came with an Herb which he called "*the medicine man*" The effect he found to be new and wonderful curing the man in a few days.

He afterwards used the Herb in his practice and found it to possess new and remarkable properties for all kinds of Humors Liver Complaints Dyspepsia Rheumatism Sores, Running Ulcers Mercurial Disease Sick Headache Kidney Complaints and a great *Alterative and Purifier of the Blood*

The above is in substance the discovery and medicinal properties of this useful Herb, as related by Dr Kelley, on his return

Upon trial its virtues have been found to far exceed its reputation as the most valuable Medicinal Herb yet discovered

Hear a Mother's voice from the Granite State

DR ORDWAY Dear Sir—Since we have procured five or six bottles we have used several bottles of your Blood Purifier in our family and from the effects produced we believe it to be an invaluable medicine.

I wish to inform you of its efficacy that it has done for our little boy (who is six years of age) and has been afflicted with ... Humor ... producing *Indigestion*, and ... *Emaciation* ... of the system ... about a year ago his stomach and all the way ... affected with Canker ... mouth and throat ... so that it was distressing to witness ... but ... little ... he was ... We ... and ... I concluded to make trial of your *Blood Purifier*, and ... Dr ... much ... his ... was improved every way and ... his ... appeared to be in a perfect health and ... all the way with a severe cough ... I ... family were ... a decline

As soon as his cough was relieved we commenced giving him the Purifier ... and by the blessing of ... this medicine has been ... the ... purifying of the ... (health)

I can confidently recommend the Blood Purifier to all who are affected with Humors in any form

We have also made use of the Purifier as a restorative after being reduced low by fever, and believe it to be the best ... for ... and restoring health and vigor

CHERRY PECTORAL,

For the rapid Cure of

COUGHS, COLDS, HOARSENESS, BRONCHITIS, WHOOPING COUGH, CROUP, ASTHMA, AND CONSUMPTION.

WE invite the attention of the public to the Certificates appended below, and bespeak for them that candid consideration which their honest frankness deserves

Men in such stations as many who voluntarily bear witness to the efficacy and value of CHERRY PECTORAL, do not wantonly trifle with or distort facts nor overstate their convictions Judge then, whether this is not the medicine to trust when you must have relief of the throat or lungs judge, too, whether every family ought not to have it by them as a safeguard against the everywhere prevailing enemy which steals with fatal frequency upon almost every flock, and carries off the lamb from many a home?

Jackson C H Jackson City O. 20th Nov 1852.

DR J C AYER—Sir The CHERRY PECTORAL is much admired here Several of our best Physicians have used it three of them in their own case, and always with the happiest effects. The numerous patent medicines always before them had ... in regard to every new remedy and this only after undoubted evidence of value or any article that any thing like a general confidence can be excited

The universal excellence of the combination of agents, (in the Cherry Pectoral) proved beyond cavil by repeated trial under their own observation, has compelled medical men to proclaim abroad its usefulness. It is beyond all doubt the best gradual remedy we have for the Pulmonary Affections in this climate at the same time sedative and expectorant—a rare combination of properties.

In the hope that it will prove its own reward, I subscribe myself, Respectfully yours of ... servant,

JAS. H C MILLER M D

Allegan, Mich. 10 h Jan'y, 1853

Dear Sir—No one, no not one—man, woman, or child—can be found to deny that the Cherry Pectoral is all that it claims to be. There is much used in this vicinity although not known until recently. The community should know its virtues. Yours truly

JOHN E. KELLOGG, M D.

What yet remains to convince the most incredulous that the *Cherry Pectoral* is all that it purports to be viz an unequalled remedial agent for all diseases of the Throat and Lungs? The experience of years, has proven it to be such, and we submit it to the people believing that its virtues will fully maintain its reputation

I came to New York in the ship Telegraph my native place is St John New Brunswick When I reached this city my health was very poor, had a bad cough raised a good deal of matter which was frequently mixed with blood had pain in my left side and was very weak and emaciated. My friends and physicians pronounced my case consumption and beyond the reach of medicine I accidentally heard of Dr Curtis's Hygeana, or Inhaling Hygean Vapor and Cherry Syrup and obtained a package which I verily believe was the means of saving my life Soon after wearing the Inhaler I found it relieved the pressure on my lungs and after a while the disease made its appearance upon the surface under the Inhaler I took the Cherry Syrup as directed and continued to do so my cough gradually grew better until it entirely left me and I now consider myself cured I still wear the Inhaler as the application is rather pleasant and believing it strengthening and purifying to the lungs I feel unwilling at present to dispense with it
